**Calculations for Measures**

MEASURE	DESCRIPTION AND HOW IT WAS CALCULATED
Career Placement Rate	The Career Placement Rate is determined through a comprehensive survey of 2022 graduates conducted by the Franciscan University Office of Institutional. The survey determines a successful career placement as being either a full-time job in the graduate’s field of study or continued study in graduate school within 12 months of graduation. The survey

	<p>response rate for graduates ranged from 50% for the BS in Economics to over 75% for all the other BS majors and the MBA degree. Franciscan University habitually achieves high response rates for this survey that measures a critical success metric for the Department of Accounting &amp; Business. There is a usual lag in the graduation year report compared to the Academic Year it is reported for. More simply, it collects outplacement data for the 2023 graduation year during the 2023-2024 Academic Year and collates it in mid-2023. MBA graduates were surveyed in 2022-2023.</p>
